

MAX IM PARKHAUS

[Max im Parkhaus Biographie \(english version\)](#)

'...where am I? What happened to my shirt? Reflections of neon lights in a car window. What happened last night? Remember! What was in my drink? Where are my friends and why ... am I lying in a parking garage?'

Max im Parkhaus consist of Kim Friehs, Fabian Valentini, Max Klepatz, Fabian Kahl and Manuel Valentini, who have made music together since 2011 (first known as Muted Noise), have played over 50 concerts and released one album (Nichts wie geplant, 2011).

Among other highlights, they supported the best known band Luxuslärm, won the 'Ruhrtour Live Award' and the 'Rio Reiser Songprice' in 2014.

Why this change? Leaving the lowest parking level for a better parking lot was overdue – in addition, the parking ticket was almost expired. You try to optimize everything. A few things change, but the basis remains same. It's not that easy, if you're really independent. Without any label, who does all that stuff e.g. promotion you have to do besides just making music. Get up from the hard ground, imagine one or two cars you can let out your frustrations on and you're prepared for the present. Have you ever woken up with a parking garage hangover? Listen to our lyrics to get over it!

If you're lying on the floor, always remember: Max has been here before. So please leave a few greetings with a permanent marker and get up. Live the moment, your life, follow your dreams, laugh it off and don't stop thinking with your heart and living louder than the other day.

Did you understand the principle Max im Parkhaus?
